PRODUCT RANGE

Ahrens offers a range of silo storage solutions to fit your needs. From Transportable to Site Constructed silos, we work with our customers to ensure you are satisfied with a high quality product that suits your application. As a fourth-generation Australian family business, Ahrens remains

an Australian silo manufacturer that builds every silo to Australian conditions. Our silos are built in our local facilities and delivered to you either fully assembled or ready for site construction. We guarantee our quality with an industry leading 5 year warranty.

Transportable Grain Silos

55 tonne to 123 tonne capacity

- Fully welded 30° to 35° base cone angle
- Zincalume steel roof and tank construction
- Sight glasses and ground operated lid opener
- Easily accessible cone base manhole
- External sidewall ladder, cage and platform (specific sizes only) roof handrail and ladder
- Ahrens silo section ring beam (eliminating grain traps)
- Delivered fully-assembled to site
- Optional sealing, aeration and fumigation system

Flat Bottom Silos

500 plus tonne. Gaslock sealed to AS268.2010.

- Fumigant recirculation system
- Ground level centre fill control
- Level indicators
- Eave inspection hatch
- Side-wall access door
- High capacity 300mm unloaders with emergency slide gate
- In-floor aeration system ('T' or 'H' configuration)
- Aeration options available to suit your requirements

Hopper Bottom Silos

175 to 1000 tonne, Gaslock sealed to AS2628.2010.

Australian manufactured and assembled on site by skilled Ahrens staff, our hopper bottom silos provide options for smaller farms to large commercial operations.

- Fully galvanised roof and wall structure
- Heavy duty conical base and support structure
- 800 centrefield throat
- 1000m outlet clearance.

Feeders

8 to 16 tonne capacity

A one-solution-fits all system, Ahrens provide a 500m trough height to feed both sheep and cattle. Our range includes circular feeders, trailing feeders and hay cradles.

- Centre fill for complete filling
- Skids for easy manoeuvring
- Weather shield
- Adjustable feed rate

CONDITIONS

Ahrens

Field Bins

30 tonne to 38 tonne capacity

Both Gravity and PTO Fields Bins are available with the flexibility of being able to position the bins where needed and can be operated by a single person. Our range have been the market leader for more than 50 years and we guarantee this with our industry leading 5 year warranty.

- PTO Internal
- PTO External
- Gravity
- 44 Tonne

Augers

Ahrens in partnership with Brandt provide grain handling options for all applications on farm.

- We offer a wide range of sizes & configurations:
- Small enough to move around but have a high capacity for their size
- 84 to 236 tonnes per hour depending on size
- Power options – Petrol/Diesel/PTO or Electric

Bunkers

Our Drive Over Hopper Stackers can be customised to suit a wide range of conditions and feature:

- Systems up to 400 tonnes/hour capacity
- Low profile DOH to accept any combination of transport
- Can be dismantled to fit into 40ft shipping containers
- Cover tarps (optional)
- Tie down straps (optional)
- Tarp handling clamps (optional)
- Moon buggy (optional)

Industrial Rural Infrastructure

Ahrens has the ability to deliver highly-functional value-for-money engineering projects throughout Australia. Our past projects range from feedmills, grain handling and export facilities through to processing plants, storage sheds and infrastructure works.

- Construction project management
- Design and construct
- Engineering services
- Procurement
- Steel fabrication & erection

NO.1 IN RURAL INFRASTRUCTURE

Ahrens is an Australian owned and operated family business.

All our rural infrastructure is built to Australian standards and specifically to suit Australian conditions.

We make storage of your products and equipment the easiest job on the farm.

- **Site Constructed Silos**
- **Transportable Silos**
- **Field Bins**
